

TV Instructions

Elasa Apartment • Nea Kallikrateia

IMPORTANT LIMITATION FOR GUESTS: Because there is only one power socket and one HDMI cable behind the TV, only one device can be connected at a time. Switching between the Smart TV Box and Greek TV requires manually moving the cable.

1. How to switch and turn on the devices

To switch from one device to another, follow these steps exactly:

1. Step 1: Unplug the black power adapter of the current device from the power socket and plug in the adapter for the device you want to watch.
2. Step 2: Unplug the loose end of the HDMI cable from the old device and insert it into the HDMI port of the new device.
3. Step 3: Turn on the TV using the red button on the original remote control.
4. Step 4: Press the AV / INPUT button to select the correct HDMI source.

Panasonic TV remote control

2. Option A: Smart TV Box

For YouTube, Netflix and Bulgarian TV. After connecting the power and HDMI cable to the Smart TV Box:

1. This option is best if you want to watch YouTube or Bulgarian TV via A1 (Xplore TV / the app).
2. Make sure the hexagonal device is lit blue, which means it has power.
3. Use the long black remote control (EON). The round arrow button and the central OK button are used for selection, and the Home button returns you to the main menu.
4. For faster typing and searching, you can use the mini keyboard with the built-in touchpad.

Smart TV Box (A95X)

3. Option B: Greek TV

Terrestrial antenna. After moving the power and HDMI cable to the digital receiver:

1. Check that the small rectangular black receiver is turned on and lit.
2. Use the remote control with the logo at the bottom to control the channels.
3. Change channels with the CH+ / CH- buttons and adjust the volume with the VOL+ / VOL- buttons.
